

PHOTON BOOST

The logo features a stylized 'Q' composed of concentric green circles, with the word 'PHOTON' in dark green above it and 'BOOST' in dark green below it.

OPEN CALL

**for Photonics & Quantum Innovation
targeting sustainability and resilience
Launching 17 November 2025**

**PhotonQBoost invites SMEs operating and
implementing photonics and quantum
technologies to apply for funding.**

The programme supports:

- Innovative solutions development
- Training and services
- Innovation missions to expand collaboration networks

A total of €728,000 in grant funding will be awarded under a flat-rate, milestone-based model – empowering SMEs to drive a more sustainable and competitive European industry.

PhotonQBoost helps European SMEs to implement Photonics & Quantum technologies for sustainability, efficiency and resilience.

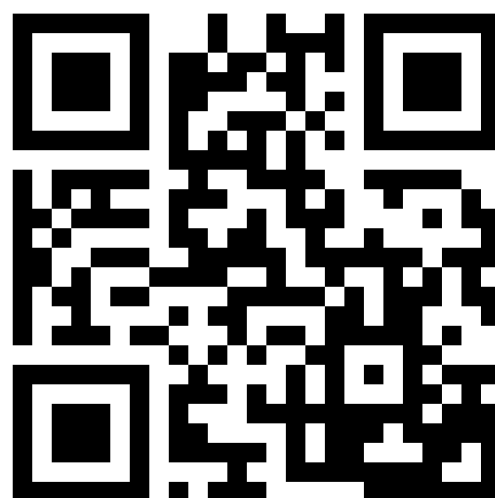

Open Call Funding opportunities structure:

- **Solutions Grants – up to €40,000** for up to 15 SMEs developing innovative photonics or quantum applications.
- **Training and Service Grants – up to €10,000** for up to 15 SMEs focused on enhancing resilience and sustainability skills.
- **Mission Grants – support for up to 40 SMEs to participate in networking and innovation missions (€610–€830 per SME).**

Visit **photonqboost.eu** and connect with us on social media **@PhotonQBoost** for more information on the call launch, upcoming webinars and guidance for applicants.

**Interested in
our services?**

Eligible applicants for the Open Call funding must be legally established SMEs operating in photonics or quantum technologies, registered in an EU Member State or Horizon Europe Associated Country, and aligned with at least one of the challenges and objectives of the call.

Funded by
the European Union
